

# Comprehensive guide for change

**TDD specific  
considerations**

1. Write down intended benefits
2. Identify those which can be measured

Quantitative

## **Flow metrics**

- Cycle time
- Releases
- Cards completed

## **Deploys rolled back**

## **Time spent on bugs**

- Categorizing
- Reproducing
- Fixing

## **Code coverage**

## Quantitative

### Flow metrics

- Cycle time
- Releases
- Cards completed

### Deploys rolled back

### Time spent on bugs

- Categorizing
- Reproducing
- Fixing

### Code coverage

## Qualitative

### Developer happiness

### Team communication

### Sense of ownership

...

# Code Kata

An exercise in programming which helps programmers hone their skills through practice and repetition.

Start by test-driving all  
**new code.**

# Test-driving Existing Code

Tests

Existing Code

```
bedtime_routine = function() {...}  
morning_routine = function() {  
    eat_breakfast();  
    get_dressed();  
    brush_teeth();  
}
```

# Test-driving Existing Code

## Tests

```
 morning_routine_test = function()  
{  
  routine_includes_breakfast();  
}
```

## Existing Code

```
// bedtime_routine = function() {...}  
// morning_routine = function() {  
//   eat_breakfast();  
//   get_dressed();  
//   brush_teeth();  
// }
```

# Test-driving Existing Code

## Tests

```
 morning_routine_test = function()  
{  
  routine_includes_breakfast();  
}
```

## Existing Code

```
// bedtime_routine = function() {...}  
  morning_routine = function() {  
    eat_breakfast();  
    // get_dressed();  
    // brush_teeth();  
  }
```

# Test-driving Existing Code

## Tests

```
✓ morning_routine_test = function()  
  {  
    routine_includes_breakfast();  
  }  
  
⊘ morning_routine_test_2 = function()  
  {  
    routine_includes_clothes();  
  }
```

## Existing Code

```
// bedtime_routine = function() {...}  
  morning_routine = function() {  
    eat_breakfast();  
    // get_dressed();  
    // brush_teeth();  
  }
```

# Test-driving Existing Code

## Tests

```
✓ morning_routine_test = function()  
  {  
    routine_includes_breakfast();  
  }  
  
⊘ morning_routine_test_2 = function()  
  {  
    routine_includes_clothes();  
  }
```

## Existing Code

```
// bedtime_routine = function() {...}  
  morning_routine = function() {  
    eat_breakfast();  
    get_dressed();  
    brush_teeth();  
  }
```

# Test-driving Existing Code

## Tests

```
✓ morning_routine_test = function()  
  {  
    routine_includes_breakfast();  
  }  
  
✓ morning_routine_test_2 = function()  
  {  
    routine_includes_clothes();  
  }
```

## Existing Code

```
// bedtime_routine = function() {...}  
  morning_routine = function() {  
    eat_breakfast();  
    get_dressed();  
    brush_teeth();  
  }
```

Add tests to existing code  
**as the code is touched.**
